AAAH is a growing regional network on HRH in Asia and Pacific. Its successes depend much on the generous support from the G4HWA, the RF, the WHO, and the WB. Most important are the committed spirit, collective actions, and the feeling of ownership among its partner.

In this coming year AAAH is moving toward a clearer direction with its three year strategic plan and workplan and a stronger governing structure with new board members and a new 'chair elect' from China.

We strongly wish to work closely with all partners to constructively build up adequate HRH for a strong and robust health system.

May I wish you all a Merry Christmas and a Happy New Year.

Suwit
