

Lessons learned from the AAAH training Workshop on

“ Regional guidelines for country strategic planning of HRH “
The legend villas, Mandaluyong City, Philippine 5-9 May 2008.

First of all, on behalf of Lao participants, we would like to convey our sincere thanks to the Organizing committee and all staffs of DOH, College of Public Health UPM of Philippine as well as AAAH secretariat, to give the opportunity to our team to attend this training workshop, and provide us all facilitation such as sending us the necessary information before the training, travel arrangement, accommodation, and all Workshop's documents and tools.

We can capture the contents of all sessions and modules as much as we can. It's very useful for our team because it relates to our daily work. Since the content and practical sessions are many but time is very limited, we can't absorb all presentations deeply. We believe and hope that all country members will continue to share exchange and help each other.

We can say that now we understand more deeper the process and steps on how to formulate HRH strategic planning, especially HRH projection, HRH leadership and management. Regarding the definition and different types of policy we can say frankly that it's the first time that we hear from this workshop. At the same time, during this workshop we enjoy very much the party dinner at Manila bay.

From Lao participants
Thank you.
